

HUERTA APPEARS SAFELY IN LEAD

His Election as President a Foregone Conclusion.

STATE OF PAINFUL SUSPENSE

Foreign Residents and Mexicans Appear Anxious Regarding Next Move of the United States—Many Americans Pack Their Portable Belongings and Are Ready to Leave the Country.

Galveston, Tex., Oct. 31.—President Wilson's personal representative in Mexico, John Lind, and Rear Admiral Fletcher, commanding the American fleet in Mexican waters, have undertaken negotiations with a steamship company for the safe passage of General Felix Diaz and his two companions. The steamship Alabama has been put at their service.

Mexico City, Oct. 31.—With the election of General Victoriano Huerta and General Aureliano Blanquet almost a foregone conclusion, according to the official returns, the question as to what Washington proposes to do is keeping the foreign residents and the majority of Mexicans in a state of painful suspense. On the surface, at least, the administration is giving little consideration to the subject, seemingly taking the ground that the Mexican people have declared in favor of Huerta's continuance in the presidency.

Although it is openly charged in many quarters that it was official pressure that resulted in rolling up majorities for Huerta and Blanquet the fact remains there is no possibility of going back of the returns. In view of Washington's previous representations on the subject the next move of the American government is awaited here with no little misgiving.

Americans Ready to Flee.

Many Americans have already packed their portable belongings, preparatory to flight, and are facing the necessity of leaving their household effects to fate. They express little hope of finding anything left upon their return. The inadequate storage facilities are already overtaxed and most of those who contemplate flight expect to leave their homes in charge of Mexican caretakers, as the only alternative.

The flight of General Felix Diaz, while never arousing great interest in the capital, has practically ceased to be a subject of comment. His candidacy was regarded by many Mexicans as a mere incident of the campaign and was never taken seriously; his flight eliminates him from calculation. Federico Gamboa, Manuel Calero and David de la Fuente appear to have conceded their defeat in the face of obstacles, alleged to have been found in the way of their adherents.

GO AT THEIR OWN RISK

Americans Are Advised to Keep Away From Mexico.

Washington, Oct. 31.—Americans desiring to go to Mexico will receive no assistance or encouragement from the administration. This became known when President Wilson declined to grant the request of Representative Mann of Illinois, Republican leader in the house, that the United States company be permitted to send engineers and chemists to its plantations at Topolobampo bay on the next government supply vessel going down the Pacific coast.

WINS NINTH BUTTER BANNER

Minnesota Again Awarded First Prize at Convention.

St. Paul, Oct. 31.—Minnesota won the banner for the highest average scoring butter at the National Creamery Buttermakers' convention in Chicago, according to a telegram received from Dairy and Food Commissioner J. G. Winkler by O. A. Storvick, secretary of the Minnesota department.

This is the ninth banner won by Minnesota of eleven awarded by the association. The banner is given to the state averaging highest on its ten best tubs.

Minnesota also had the highest individual score. This was by O. N. Peterson of Rapidan, with a mark of 96.83.

ROADS CHANGE FRONT.

Albany, N. Y., Oct. 31.—Railroad traffic managers have ceased to war on waterways and improvements because they realize that their lines no longer are capable of handling all the heavier freight. Henry W. Hill of Buffalo, president of the New York State Waterways association, so declared in his opening address at the annual convention of the organization.

VANDERLIP AND HILL ON FINANCE

Banker and Rail Magnate Sound Note of Warning.

WATERLOGGED WITH BONDS

James J. Hill Tells Financiers Confidence Cannot Be Restored Until the Name Bond Has Won Back Something of Its Old Standard. Frank A. Vanderlip Opposes Pending Currency Measure.

Chicago, Oct. 31.—James J. Hill and Frank A. Vanderlip, the speakers at the banquet which closed the convention here of the Investment Bankers' Association of America each sounded a note of warning to the business interests of the country.

Mr. Hill, whose subject was "Railroad Financing of the Future," declared that "the country is waterlogged with bonds. Confidence cannot be restored," he said, "until the name bond has won back something of its old standard."

Vanderlip said that congress was in danger of saddling on the country a ruinous policy of fiat money. The senate, he said, was hesitating and fearful of doing anything against the wishes of the house. Mr. Hill said in part:

"If the true story of all municipal indebtedness, now concealed behind various temporary makeshifts, so as to maintain an ostensible credit and help push out the annual crop of new refunding bonds could be told, it would shock the country and give pause even to the advocates of unlimited expenditure, for public purposes."

"The situation with regard to bonds, generally spoken of as 'industrial,' is worse. The field is so large and so diverse as to defy statistical tabulation. Hundreds of millions of bonds have been issued to promote consolidations, these securities being part of the purchase price of the smaller concerns to be united in one big corporation."

On Undeveloped Property.

"Other hundreds of millions have been issued against property still to be developed, such as mines, timber lands, irrigated lands, and even ordinary real estate, where many separate holdings are combined in the hands of an active selling or developing concern."

"These are of varying degrees of soundness; from the bond with property behind it that would fetch face value at a forced sale at any time, to mere speculative pledges of a future realization or increment that is little better than a guess."

"Finally, there is the enormous mass, recorded only locally and beyond any reliable estimate in amount, of bonds that are not, in view of the flimsy or insufficient security behind them, entitled to be called bonds at all."

Mr. Hill said the place of the share of stock has changed little.

Mr. Vanderlip spoke on the pending banking legislation. "The fatal defect of the Glass bill," he said, "is that it starts the country on an issue of fiat currency. The notes proposed are fiat notes. They have no reserve whatever provided by the government and they are to be loaned without limit to a number of banks."

"There is no case in history where a nation has started on an issue of fiat money that the result has not been a complete breakdown of the financial system of that country."

WILL CONFER ON CUSTOMS

Collectors From Every District to Meet in New York.

Washington, Oct. 31.—Customs collectors from every district in the United States, Alaska and island possessions will attend a conference at New York next week called by Secretary McAdoo. Both Mr. McAdoo and Assistant Secretary of the Treasury Hamline will address the collectors.

Means of insuring greater efficiency in the service will be considered.

Busch Estate \$50,000,000.

St. Louis, Oct. 31.—The will of Adolphus Busch makes charitable bequests aggregating \$170,000 to a number of St. Louis institutions and places the bulk of the estate in trust, naming Mrs. Lily Busch, Charles Nagel and August A. Busch trustees. The total bequests for charitable purposes amount to \$210,000. The estate is valued at \$50,000,000.

GARRISON NAVIGATES GATUN

Secretary of War Is Taken Through Locks on a Tug.

Panama, Oct. 31.—The American secretary of war, Lindley M. Garrison, was taken through Gatun locks and proceeded on a tug through Gatun lake as far as the Cucaracha slide. The secretary has also made an inspection of the fortifications at the Atlantic entrance of the canal.

GOUGHAN FUSIONISTS HAVE LARGE RALLY

Mitchell, Low, Straus and Others Score Tammany Hall.

New York, Oct. 31.—Enthusiasm for the fusion municipal ticket headed by John Purroy Mitchell reached its height at a mass meeting in Madison Square Garden. An audience which packed the big amphitheater heard the mayoralty candidate himself; former Mayor Seth Low, who once led a fusion cause to victory; Oscar S. Straus, former ambassador to Turkey, and others attack Tammany Hall.

Mr. Straus aroused the crowd to a demonstration when he denounced Tammany Hall for what he declared was its recently displayed power to conduct its own recall and make and unmake a governor.

Seth Low, as chairman, also caught the crowd, when, in answering his own question, "how can Tammany be destroyed?" he replied, "by putting it on a hunger strike and not trying to forcibly feed it."

Edward McCall addressed several Democratic meetings at which he departed from his usual custom by mentioning by name John A. Hennessy, Governor Sulzer's graft investigator, who has brought many charges against McCall.

Hennessy continued his campaign. He devoted the greater part of his talk to Charles F. Murphy, reiterating the charges he has made against the Tammany leader.

FREED OF WHITE SLAVERY

Actor Acquitted on Charge of Violating Mann Act.

Baltimore, Oct. 31.—Grover C. Rosenthal, an actor of New York, charged with violation of the Mann white slave act, was acquitted in the federal district court. The jury deliberated only seven minutes.

Rosenthal, whose wife and child were in court, was charged with bringing Margaret Helbig from Philadelphia to this city for immoral purposes. He said he and the young woman were on the stage together and registered at boarding houses as husband and wife.

Judge Rose said the defendant had violated the Mann act as he construed it, "if the jury believed beyond a reasonable doubt that one of the purposes he had in mind when he brought this girl into the state of Maryland was to continue relations that had existed between them while together elsewhere."

STARVES TO DEATH.

Salina, Oct. 31.—Daniel Killahane, who since his wife left him twenty years ago, has lived the life of a recluse on his farm near here, was found dead of starvation in his home. There was no heat in the house, nor any trace of food. Killahane owned one of the richest farms in the neighborhood and had large herds of live stock and a substantial bank account. Physicians said there was every evidence that the man had starved himself to death. Killahane was seventy-five years old.

560 PASSENGERS IN PERIL

Steamer Beaver Collides With Lumber Schooner.

San Francisco, Oct. 31.—The steamer Beaver, from Portland to Astoria, with 560 passengers on board, was in collision with the lumber steamer Necanicum off Fort Bragg on the Northern California coast. The Beaver is proceeding toward San Francisco with her port bow stove in above the water line. No mention was made in the wireless message of the condition of the lumber vessel.

POSTAL RATES A BIG PUZZLE

Parcel Post Law Complicates Question.

PENNY POSTAGE MEN ACTIVE

One Change by Congress Would In All Probability Be Followed by Many Others—However, Number of Complications Needing Adjustment Have Been Found by Interested Persons.

By ARTHUR W. DUNN.

Washington, Oct. 31.—[Special.]—Adjustment of postal rates is a puzzle that reminds us of the various devices that have been put upon the market and which men, women and children work over by the hour, such as trying to get a certain article into a certain place. The parcel post law has complicated the question to some extent.

The rates seem to be inconsistent. It is shown that it is cheaper to ship a package in and out of different zones than to ship it straight through to the place of destination. It is found that new proposals will make the cost of circulars greater than ever before. The bookmen who are to get in by a recent ruling will find the expense too great on long distance shipments. In fact, there are any number of complications that need readjustment.

First and Second Class Rates.

It is almost certain that in case there is a congressional adjustment of the third and fourth class rates efforts will be made to have first and second class rates readjusted. The advocates of one cent postage have been very active, and they are insisting upon an increase of the rate on second class by which the newspapers and periodicals will have to pay at least 2 cents a pound in order to secure the one cent rate on first class mail.

Once congress takes up the subject of postage rate adjustment no one can tell where it will end. Any measure presented for making rates on third and fourth class matter can be made to include first and second class and not be subject to being ruled out on a point of order.

Delved Into History.

Congressman Brumbaugh of Ohio thought it fitting, he hailing from Columbus, to pay a tribute to the man who made the name famous. He delved into history for his purpose, for he mentioned many famous names in his remarks. Among them were Diogenes, Cicero, Hannibal, Caesar, Demosthenes, Socrates, Plato, Galileo, Pythagoras, Aristotle, Hipparchus, Ptolemy, Pliny, Vergil, Ovid, Scipio, Pindar, Sir John Mandeville, Marco Polo, Kublai Khan, the Pinzon brothers, Prince Henry of Portugal, Shakespeare, Joan of Arc, Ponce de Leon, Ferdinand and Isabella, of course, and perhaps some others I have overlooked. Naturally there are many other men and countries, ancient and modern, mentioned in the speech.

Figures of Speech.

But Brumbaugh also had a few figures of speech that were interesting, such as "greatest soul that ever wore the clay of earth," "bathed his name in immortality," "backward across the centuries of the past we can see a few mountain peaks jut out from oblivion's sea," "mountain top of faith and vision," "the telescope of time as it sweeps the historical heavens," "snatched immortality from the ruins of ceaseless time," and "the storm tossed life over which rolled all the bitter waves of hate."

A New Constituency.

"I would like to get home," said Mark Smith of Arizona. "I have a constituency which is different from other men. It is new every time I go before it. The old fellows that I have known for the past thirty-five years are dying off; new men are coming in, and I have to get acquainted with new people all the time."

No one who is not acquainted with the rapid changes in new states can realize that there is a new crop of voters every three or four years, but that is the way things move in the far west.

"Not a Tremor."

Last summer Senator Page went up in an aeroplane.

"When you heard of the recent accidents didn't you rather feel as if you had an escape?" he was asked.

"I never felt a tremor," replied the Vermont senator. "A man who was born to be drowned isn't going to hang or drop out of a flying machine."

Talk of Money in Alabama.

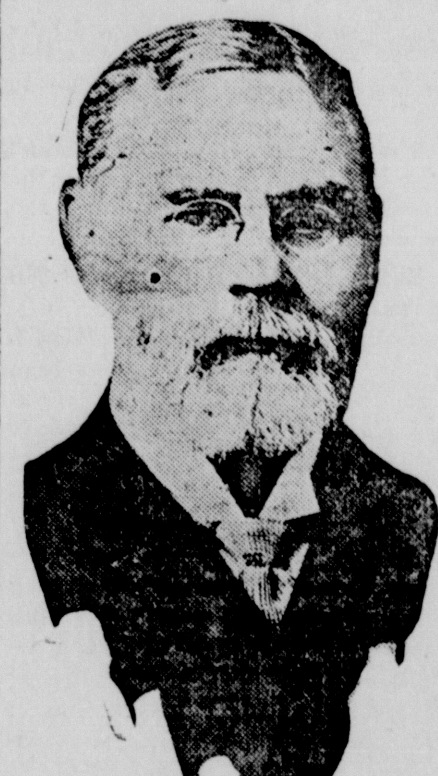

In spite of the fact that candidates for the senate are limited to the expenditure of \$10,000 to secure their election it is said that much larger sums will be spent in Alabama for both candidates. While Hobson is not rich, he is quite well to do and makes considerable money besides his salary. Underwood has family friends that are rich and it is said will spend liberally to elect him.

A Wisconsin "Landlubber."

Senator La Follette was discussing the seaman's bill, a measure to which he has given a great deal of attention, and one senator questioned the statements he had made. "Of course," remarked the Wisconsin senator, "I am a landlubber and have to take my turtleneck from those who have been at sea."

OPPOSES GIFT FOR BRIDE

Gray Denounces Plan to Give Jessie Wilson Present.

Washington, Oct. 31.—Republican Leader Mann's plan for subscriptions from congressmen to a wedding gift for Miss Jessie Wilson was denounced in the house by Representative Gray, Democrat, of Indiana, who said the movement was in "exceedingly bad taste."

Gray declared that few of the members knew the bride-elect and he offered a resolution declaring that "the members of the house extend to Miss Wilson on approaching the great step in life's highway their heartfelt congratulations and well wishes as a symbol of the solicitude of this great nation for the happiness and welfare of all our people."

MAROOINED FOR TEN YEARS ON ISLAND

Party of Eskimos Exist on Fish and Seal Meat.

Winnipeg, Oct. 31.—Hudson Bay officials in Winnipeg have received reports from the Far North that a party of Eskimos, numbering ten persons, have been rescued from an island in the mouth of Hudson bay, upon which they had been marooned for ten years.

The Eskimos were caught off shore on drifting ice and were carried, after long weeks of hardships, to the island upon which they were found. This island has been avoided by passing vessels because of reefs and magnetic disturbances. It is more than 100 miles off the main land.

The Eskimos had lived during the period of their enforced stay on fish and seal meat. Several children were born during the decade and some of the party had died. All who were rescued seemed to be in good health.

MRS. EATON IS NOT GUILTY

Jury Acquits Widow on Charge of Killing Husband.

Plymouth, Mass., Oct. 31.—After seven months' imprisonment on a charge of having murdered her husband, Rear Admiral Joseph G. Eaton, by poison, Mrs. Jennie May Eaton stepped from the courthouse here a free woman.

The jury which heard the case against Mrs. Eaton filed into the courtroom after eight hours of deliberation and announced the acquittal of the accused woman.

Mrs. Eaton received the verdict calmly. She was standing between her counsel when the verdict was read and then sank wearily into her chair.

POSTAL SERVICE REFORMS

Burleson Tells of His Plans for Standardization.

Washington, Oct. 31.—Postmaster General Burleson has decided to standardize the entire postal service, so far as possible, with a view to greater efficiency. To this end the department will operate a number of model offices. These offices will be used to discover the best practicable way of administering the postal facilities and to test out devices and methods which may prove of value.

In organizing the field service for this work the country has been divided into three groups, the Atlantic, the Middle West and the Pacific Coast.

SIXTY MORE BACK AT WORK

Four More Bodies Recovered From New Mexico Mine.

Dawson, N. M., Oct. 31.—About sixty more miners went to work in the mines of the Stag Canyon Fuel company. In the last twenty-four hours four bodies have been recovered from mine No. 2, wrecked by an explosion. The thirty-eight bodies still in the mine are buried under from two to four feet of debris and the work of removal from now on will be slow.

SULZER CASE IN FEDERAL COURT

GUARDS FIRE ON STRIKERS

Militia Held in Readiness to Prevent Disorders.

Trinidad, Colo., Oct. 31.—Apprehension of outbreaks between striking miners and mine guards, accentuated by an attack upon the strikers' colony at Aguilar, caused Adjutant General Chase, in command of the Colorado national guard camped here, to hold the entire command in the military camp.

Frequent trips of investigation were made by troops and a squad of cavalry was ordered from Wallensburg to Aguilar, where an outbreak appeared probable. Strikers in the colony there demanded the protection of the state troops after having been deprived of many guns by the infantry company.

LET CONTRACTS TO HIMSELF

Former Navy Clerk Testifies in Conspiracy Suit.

Seattle, Oct. 31.—In the trial of Edwin F. Meyer, Einar Goldberg, W. A. Corder and E. Silverstone, charged with conspiracy to defraud the United States, J. A. Kettwell, former chief clerk in the navy pay office in Seattle, testified he tried a scheme whereby he submitted bids under the name of a fictitious firm, awarded the contract to himself and filled the contracts.

He said Meyer was equally implicated with him.

NEW ENGLAND SHORT OF ICE

Fishing Fleet Particularly Feels Lack of Frozen Water.

Boston, Oct. 31.—The high temperature this fall and the small ice harvest in Southern New England last winter has brought about an ice shortage which is beginning to be felt, especially on the fishing fleet. A hundred vessels engaged in shore fishing are held at the wharves because of the owners' inability to obtain a supply of ice. The shortage is expected to continue for two months.

RECONSIDERATION IS ASKED

Commercial Interests Want England Represented at Frisco.

London, Oct. 31.—An influential nonpolitical committee, which will ask the British government to reconsider its decision in regard to participation in the Panama-Pacific exposition, was formed here by the heads of the great steamship, commercial and manufacturing companies.

New York Printer Files Remarkable Petition.

ACT IS WITHOUT PRECEDENT

Impeachment and Removal From Office of Governor Sulzer Is Alleged Illegal and Injunction Restraining Governor Glynn From Exercising Any of the Functions of the Office Is Asked.

New York, Oct. 31.—The conviction of William Sulzer by the high court of impeachment and his removal from office as governor of New York was thrown into the federal court for review by William H. Moore, a printer of this city.

In a remarkable petition Moore alleges that the control of the government of the state of New York has passed from the people to a small group of citizens and that consequently New York is no longer enjoying a republican form of government, as guaranteed by the federal Constitution.

Moore seeks to have the court enjoin Martin H. Glynn from exercising any of the functions of governor, prays for the restoration of the office to Sulzer, attacks the assembly for arrogating to itself the power to convene in extraordinary session and pass articles of impeachment and concludes his petition with a prayer for an audit of all the state books.

Members of the court of impeachment, Governor Glynn, Attorney General Carmody, Secretary of State May and Sulzer himself are named as defendants. Why Sulzer was made a defendant is not clear.

Sulzer, engaged in the height of a campaign for election to the assembly on the Progressive ticket, expressed surprise at the filing of the suit. When reporters told him that the action had been brought, he said:

"That's the first I have heard of it."

Moore disclaimed any motive for the action other than that inspired by his duty as a citizen and a taxpayer.

Shorn of its legal verbiage the petition charges a group of men, consisting partly of the defendants and partly of men unnamed, with having obtained control of the state, its many offices and vast funds, for their sole use and benefit.

CASE HAS NO PRECEDENT

Supreme Court Never Reviewed Impeachment Proceedings

Washington, Oct. 31.—There are no precedents for the supreme court reviewing impeachment proceedings as such. The injunction proceedings filed in New York might come to the highest court for review on the contention that federal constitutional rights had been denied to Sulzer. On that phase there is a legal provision for a supreme court review. Should the case be forwarded from the lower court it undoubtedly would be expedited; otherwise a decision would not be reached in regular course for nearly three years.

ASSERTS SUIT IS ABSURD

New York Attorney General Gives His Opinion.

Albany, N. Y., Oct. 31.—"Such a suit to restore Sulzer to power is absurd," said Attorney General Carmody. "I cannot believe that any one would bring such an action."

Former Senator Edgar T. Brackett, chief counsel for the assembly managers in the impeachment proceedings, made light of the suit.

Judge D. Cady Herlick, chief counsel for the defense, on several occasions has expressed the opinion that carrying the case to the supreme court would be futile.

## HUERTA APPEARS SAFELY IN LEAD

His Election as President a Foregone Conclusion.

### STATE OF PAINFUL SUSPENSE

Foreign Residents and Mexicans Appear Anxious Regarding Next Move of the United States—Many Americans Pack Their Portable Belongings and Are Ready to Leave the Country.

Galveston, Tex., Oct. 31.—President Wilson's personal representative in Mexico, John Lind, and Rear Admiral Fletcher, commanding the American fleet in Mexican waters, have undertaken negotiations with a steamship company for the safe passage of General Felix Diaz and his two companions. The steamship Alabama has been put at their service.

Mexico City, Oct. 31.—With the election of General Victoriano Huerta and General Aureliano Blanquet almost a foregone conclusion, according to the official returns, the question as to what Washington proposes to do is keeping the foreign residents and the majority of Mexicans in a state of painful suspense. On the surface, at least, the administration is giving little consideration to the subject, seemingly taking the ground that the Mexican people have declared in favor of Huerta's continuance in the presidency.

Although it is openly charged in many quarters that it was official pressure that resulted in rolling up majorities for Huerta and Blanquet, the fact remains there is no possibility of going back of the returns. In view of Washington's previous representations on the subject the next move of the American government is awaited here with no little misgiving.

### Americans Ready to Flee.

Many Americans have already packed their portable belongings, preparatory to flight, and are facing the necessity of leaving their household effects to fate. They express little hope of finding anything left upon their return. The inadequate storage facilities are already overtaxed and most of those who contemplate flight expect to leave their homes in charge of Mexican caretakers, as the only alternative.

The flight of General Felix Diaz, while never arousing great interest in the capital, has practically ceased to be a subject of comment. His candidacy was regarded by many Mexicans as a mere incident of the campaign and was never taken seriously; his flight eliminates him from calculation. Federico Gamboa, Manuel Calero and David de la Fuente appear to have conceded their defeat in the face of obstacles, alleged to have been found in the way of their adherents.

### GO AT THEIR OWN RISK

Americans Are Advised to Keep Away From Mexico.

Washington, Oct. 31.—Americans desiring to go to Mexico will receive no assistance or encouragement from the administration. This became known when President Wilson declined to grant the request of Representative Mann of Illinois, Republican leader in the house, that the United States company be permitted to send engineers and chemists to its plantations at Topolobampo bay on the next government supply vessel going down the Pacific coast.

### WINS NINTH BUTTER BANNER

Minnesota Again Awarded First Prize at Convention.

St. Paul, Oct. 31.—Minnesota won the banner for the highest average scoring butter at the National Creamery Buttermakers' convention in Chicago, according to a telegram received from Dairy and Food Commissioner J. G. Winkler by O. A. Storkick, secretary of the Minnesota department.

This is the ninth banner won by Minnesota of eleven awarded by the association. The banner is given to the state averaging highest on its ten best tubs.

Minnesota also had the highest individual score. This was by O. N. Peterson of Rapidan, with a mark of 96.83.

### ROADS CHANGE FRONT.

Albany, N. Y., Oct. 31.—Railroad traffic managers have ceased to war on waterways improvements because they realize that their lines no longer are capable of handling all the heavier freight. Henry W. Hill of Buffalo, president of the New York State Waterways association, so declared in his opening address at the annual convention of the organization.

### WATERLOGGED WITH BONDS

James J. Hill Tells Financiers Confidence Cannot Be Restored Until the Name Bond Has Won Back Something of Its Old Standard. Frank A. Vanderlip Opposes Pending Currency Measure.

Chicago, Oct. 31.—James J. Hill and Frank A. Vanderlip, the speakers at the banquet which closed the convention here of the Investment Bankers' Association of America each sounded a note of warning to the business interests of the country.

Mr. Hill, whose subject was "Railroad Financing of the Future," declared that "the country is waterlogged with bonds. Confidence cannot be restored," he said, "until the name bond has won back something of its old standard."

Vanderlip said that congress was in danger of saddling on the country a ruinous policy of fiat money. The senate, he said, was hesitating and fearful of doing anything against the wishes of the house. Mr. Hill said in part:

"If the true story of all municipal indebtedness, now concealed behind various temporary makeshifts, so as to maintain an ostensible credit and help push out the annual crop of new refunding bonds could be told, it would shock the country and give pause even to the advocates of unlimited expenditure, for public purposes."

"The situation with regard to bonds, generally spoken of as 'industrial,' is worse. The field is so large and so diverse as to defy statistical tabulation. Hundreds of millions of bonds have been issued to promote consolidations, these securities being part of the purchase price of the smaller concerns to be united in one big corporation."

On Undeveloped Property. "Other hundreds of millions have been issued against property still to be developed, such as mines, timberlands, irrigated lands, and even ordinary real estate, where many separate holdings are combined in the hands of an active selling or developing concern."

"These are of varying degrees of soundness; from the bond with property behind it that would fetch face value at a forced sale at any time, to mere speculative pledges of a future realization or increment that is little better than a guess."

"Finally, there is the enormous mass, recorded only locally and beyond any reliable estimate in amount, of bonds that are not, in view of the flimsy or insufficient security behind them, entitled to be called bonds at all."

Mr. Hill said the place of the share of stock has changed little.

Mr. Vanderlip spoke on the pending banking legislation. "The fatal defect of the Glass bill," he said, "is that it starts the country on an issue of fiat currency. The notes proposed are fiat notes. They have no reserve whatever provided by the government and they are to be loaned without limit to a number of banks."

"There is no case in history where a nation has started on an issue of fiat money that the result has not been a complete breakdown of the financial system of that country."

### WILL CONFER ON CUSTOMS

Collectors From Every District to Meet in New York.

Washington, Oct. 31.—Customs collectors from every district in the United States, Alaska and island possessions will attend a conference at New York next week called by Secretary McAdoo. Both Mr. McAdoo and Assistant Secretary of the Treasury Hamline will address the collectors.

Means of insuring greater efficiency in the service will be considered.

### BUSCH ESTATE \$500,000.

St. Louis, Oct. 31.—The will of Adolph Busch makes charitable bequests aggregating \$170,000 to a number of St. Louis institutions and places the bulk of the estate in trust, naming Mrs. Lily Busch, Charles Nagel and August A. Busch trustees. The total bequests for charitable purposes amount to \$210,000. The estate is valued at \$500,000.

### GARRISON NAVIGATES GATUN

Secretary of War Is Taken Through Locks on a Tug.

Panama, Oct. 31.—The American secretary of war, Lindley M. Garrison, was taken through Gatun locks and proceeded on a tug through Gatun lake as far as the Cucaracha slide. The secretary has also made an inspection of the fortifications at the Atlantic entrance of the canal.

## GOTHAM FUSIONISTS HAVE LARGE RALLY

Mitchel, Low, Straus and Others Score Tammany Hall.

New York, Oct. 31.—Enthusiasm for the fusion municipal ticket headed by John Purroy Mitchel reached its height at a mass meeting in Madison Square Garden. An audience which packed the big amphitheater heard the mayoralty candidate himself; former Mayor Seth Low, who once led a fusion cause to victory; Oscar S. Straus, former ambassador to Turkey, and others attack Tammany Hall.

Mr. Straus aroused the crowd to a demonstration when he denounced Tammany Hall for what he declared was its recently displayed power to conduct its own recall and make and unmake a governor.

Seth Low, as chairman, also caught the crowd, when, in answering his own question, "how can Tammany be destroyed?" he replied, "by putting it on a hunger strike and not trying to forcibly feed it."

Edward McCall addressed several Democratic meetings at which he departed from his usual custom by mentioning by name John A. Hennessy, Governor Sulzer's graft investigator, who has brought many charges against McCall.

Hennessy continued his campaign. He devoted the greater part of his talk to Charles F. Murphy, reiterating the charges he has made against the Tammany leader.

### FREED OF WHITE SLAVERY

Actor Acquitted on Charge of Violating Mann Act.

Baltimore, Oct. 31.—Grover C. Rosenthal, an actor of New York, charged with violation of the Mann white slave act, was acquitted in the federal district court. The jury deliberated only seven minutes.

Rosenthal, whose wife and child were in court, was charged with bringing Margaret Helbig from Philadelphia to this city for immoral purposes. He said he and the young woman were on the stage together and registered at boarding houses as husband and wife.

Judge Rose said the defendant had violated the Mann act as he construed it, "if the jury believed beyond a reasonable doubt that one of the purposes he had in mind when he brought this girl into the state of Maryland was to continue relations that had existed between them while together elsewhere."

### STARVES TO DEATH.

Salina, Oct. 31.—Daniel Killahane, who since his wife left him twenty years ago, has lived the life of a recluse on his farm near here, was found dead of starvation in his home. There was no heat in the house, nor any trace of food. Killahane owned one of the richest farms in the neighborhood and had large herds of live stock and a substantial bank account. Physicians said there was every evidence that the man had starved himself to death. Killahane was seventy-five years old.

### 560 PASSENGERS IN PERIL

Steamer Beaver Collides With Lumber Schooner.

San Francisco, Oct. 31.—The steamer Beaver, from Portland to Astoria, with 560 passengers on board, was in collision with the lumber steamer Necanicum off Port Bragg on the Northern California coast. The Beaver is proceeding toward San Francisco with her port bow stove in above the water line. No mention was made in the wireless message of the condition of the lumber vessel.

## POSTAL RATES A BIG PUZZLE

Parcel Post Law Complicates Question.

### PENNY POSTAGE MEN ACTIVE

One Change by Congress Would In All Probability Be Followed by Many Others—However, Number of Complications Needing Adjustment Have Been Found by Interested Persons.

By ARTHUR W. DUNN.

Washington, Oct. 31.—[Special.]—Adjustment of postal rates is a puzzle that reminds us of the various devices that have been put upon the market and which men, women and children work over by the hour, such as trying to get a certain article into a certain place. The parcel post law has complicated the question to some extent.

The rates seem to be inconsistent. It is shown that it is cheaper to ship a package in and out of different zones than to ship it straight through to the place of destination. It is found that new proposals will make the cost of circulars greater than ever before. The bookmen who are to get in by a recent ruling will find the expense too great on long distance shipments. In fact, there are any number of complications that need readjustment.

First and Second Class Rates. It is almost certain that in case there is a congressional adjustment of the third and fourth class rates efforts will be made to have first and second class rates readjusted. The advocates of one cent postage have been very active, and they are insisting upon an increase of the rate on second class by which the newspapers and periodicals will have to pay at least 2 cents a pound in order to secure the one cent rate on first class mail.

Once congress takes up the subject of postage rate adjustment no one can tell where it will end. Any measure presented for making rates on third and fourth class matter can be made to include first and second class and not be subject to being ruled out on a point of order.

### Delved Into History.

Congressman Brumbaugh of Ohio thought it fitting, he hailing from Columbus, to pay a tribute to the man who made the name famous. He delved into history for his purpose, for he mentioned many famous names in his remarks. Among them were Diogenes, Cleero, Hannibal, Caesar, Demosthenes, Socrates, Plato, Galileo, Pythagoras, Aristotle, Hipparchus, Ptolemy, Pliny, Vergil, Ovid, Scipio, Pindar, Sir John Mandeville, Marco Polo, Kublai Khan, the Pinzon brothers, Prince Henry of Portugal, Shakespeare, John of Arc, Ponce de Leon, Ferdinand and Isabella, of course, and perhaps some others I have overlooked. Naturally there are many other men and countries, ancient and modern, mentioned in the speech.

### Figures of Speech.

But Brumbaugh also had a few figures of speech that were interesting, such as "greatest soul that ever wore the clay of earth," "bathed his name in immortality," "backward across the centuries of the past we can see a few mountain peaks jut out from oblivion's sea," "mountain top of faith and vision," "the telescope of time as it sweeps the historical heavens," "snatched immortality from the ruins of ceaseless time," and "the storm tossed life over which rolled all the bitter waves of fate."

### A New Constituency.

"I would like to get home," said Mark Smith of Arizona. "I have a constituency which is different from other men. It is new every time I go before it. The old fellows that I have known for the past thirty-five years are dying off; new men are coming in and I have to get acquainted with new people all the time."

No one who is not acquainted with the rapid changes in new states can realize that there is a new crop of voters every three or four years, but that is the way things move in the far west.

### "Not a Tremor."

Last summer Senator Page went up in an aeroplane.

"When you heard of the recent accidents didn't you rather feel as if you had an escape?" he was asked. "I never felt a tremor," replied the Vermont senator. "A man who was born to be drowned isn't going to hang or drop out of a flying machine."

### Talk of Money in Alabama.

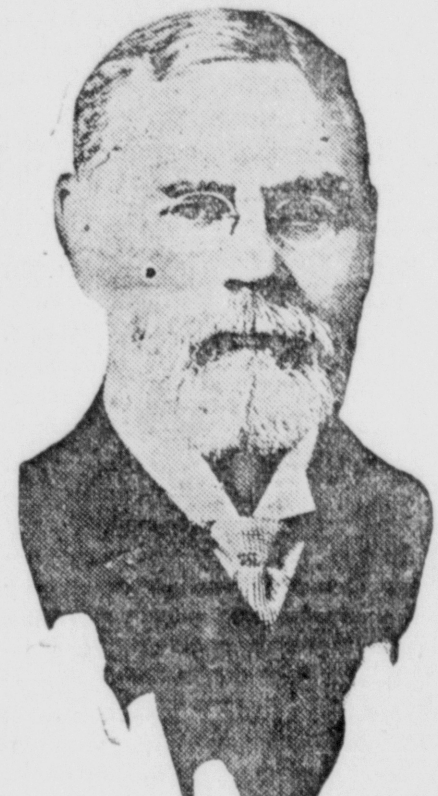

In spite of the fact that candidates for the senate are limited to the expenditure of \$10,000 to secure their election it is said that much larger sums will be spent in Alabama for both candidates. While Hobson is not rich, he is quite well to do and makes considerable money besides his salary. Underwood has family friends that are rich and it is said will spend liberally to elect him.

### A Wisconsin "Landlubber."

Senator La Follette was discussing the seaman's bill, a measure to which he has given a great deal of attention, and one senator questioned the statements he had made. "Of course," remarked the Wisconsin senator, "I am a landlubber and have to take my tutelage from those who have been at sea."

Wants Congressmen to Give Miss Wilson Wedding Present.

## OPPOSES GIFT FOR BRIDE

Gray Denounces Plan to Give Jessie Wilson Present.

Washington, Oct. 31.—Republican Leader Mann's plan for subscriptions from congressmen to a wedding gift for Miss Jessie Wilson was denounced in the house by Representative Gray, Democrat, of Indiana, who said the movement was "exceedingly bad taste."

Gray declared that few of the members knew the bride-elect and he offered a resolution declaring that "the members of the house extend to Miss Wilson on approaching the great step in life's highway their heartiest congratulations and well wishes as a symbol of the solicitude of this great nation for the happiness and welfare of all our people."

## MAROOINED FOR TEN YEARS ON ISLAND

Party of Eskimos Exist on Fish and Seal Meat.

Winnipeg, Oct. 31.—Hudson Bay officials in Winnipeg have received reports from the Far North that a party of Eskimos, numbering ten persons, have been rescued from an island in the mouth of Hudson bay, upon which they had been marooned for ten years.

The Eskimos were caught off shore on drifting ice and were carried, after long weeks of hardships, to the island upon which they were found. This island has been avoided by passing vessels because of reefs and magnetic disturbances. It is more than 100 miles off the main land.

The Eskimos had lived during the period of their enforced stay on fish and seal meat. Several children were born during the decade and some of the party had died. All who were rescued seemed to be in good health.

### MRS. EATON IS NOT GUILTY

Jury Acquits Widow on Charge of Killing Husband.

Plymouth, Mass., Oct. 31.—After seven months' imprisonment on a charge of having murdered her husband, Rear Admiral Joseph G. Eaton, by poison, Mrs. Jennie May Eaton stepped from the courthouse here a free woman.

The jury which heard the case against Mrs. Eaton filed into the courtroom after eight hours of deliberation and announced the acquittal of the accused woman.

Mrs. Eaton received the verdict calmly. She was standing between her counsel when the verdict was read and then sank wearily into her chair.

### POSTAL SERVICE REFORMS

Burleson Tells of His Plans for Standardization.

Washington, Oct. 31.—Postmaster General Burleson has decided to standardize the entire postal service, so far as possible, with a view to greater efficiency. To this end the department will operate a number of model offices. These offices will be used to discover the best practicable way of administering the postal facilities and to test out devices and methods which may prove of value.

In organizing the field service for this work the country has been divided into three groups, the Atlantic, the Middle West and the Pacific Coast.

### SIXTY MORE BACK AT WORK

Four More Bodies Recovered From New Mexico Mine.

Dawson, N. M., Oct. 31.—About sixty more miners went to work in the mines of the Stag Canyon Fuel company. In the last twenty-four hours four bodies have been recovered from mine No. 2, wrecked by an explosion. The thirty-eight bodies still in the mine are buried under from two to four feet of debris and the work or removal from now on will be slow.

## SULZER CASE IN FEDERAL COURT

### GUARDS FIRE ON STRIKERS

Militia Held in Readiness to Prevent Disorders.

Trinidad, Colo., Oct. 31.—Apprehension of outbreaks between striking miners and mine guards, accentuated by an attack upon the strikers' colony at Aguilar, caused Adjutant General Chase, in command of the Colorado national guard camped here, to hold the entire command in the military camp.

Frequent trips of investigation were made by troops and a squad of cavalry was ordered from Walsenburg to Aguilar, where an outbreak appeared probable. Strikers in the colony there demanded the protection of the state troops after having been deprived of many guns by the infantry company.

### LET CONTRACTS TO HIMSELF

Former Navy Clerk Testifies in Conspiracy Suit.

Seattle, Oct. 31.—In the trial of Edwin F. Meyer, Emar Goldberg, W. A. Corder and E. Silverstone, charged with conspiracy to defraud the United States, J. A. Kettlewell, former chief clerk in the navy pay office in Seattle, testified he tried a scheme whereby he submitted bids under the name of a fictitious firm, awarded the contract to himself and filled the contracts.

He said Meyer was equally implicated with him.

### NEW FLEET SHORT OF ICE

Fishing Fleet Particularly Feels Lack of Frozen Water.

Boston, Oct. 31.—The high temperature this fall and the small ice harvest in Southern New England last winter has brought about an ice shortage which is beginning to be felt, especially on the fishing fleet. A hundred vessels engaged in shore fishing are held at the wharves because of the owners' inability to obtain a supply of ice. The shortage is expected to continue for two months.

### RECONSIDERATION IS ASKED

Commercial Interests Want England Represented at Frisco.

London, Oct. 31.—An influential nonpolitical committee, which will ask the British government to reconsider its decision in regard to participation in the Panama-Pacific exposition, was formed here by the heads of the great steamship, commercial and manufacturing companies.

### Toothpicks.

A single mill in Maine uses 2,000 cords of paper birch each year in the manufacture of toothpicks.

### Accused of Manslaughter.

Muncie, Ind., Oct. 31.—Thomas Stanley, motorman of the Indiana Union Traction car which was wrecked near here a week ago, causing the death of two persons and injury of forty others, was arrested on two charges of involuntary manslaughter. He was later released on \$2,000 bond. The warrant charged Stanley caused the death through negligence.

New York Printer Files Remarkable Petition.

### ACT IS WITHOUT PRECEDENT

Impeachment and Removal From Office of Governor Sulzer Is Alleged Illegal and Injunction Restraining Governor Glynn From Exercising Any of the Functions of the Office Is Asked.

New York, Oct. 31.—The conviction of William Sulzer by the high court of impeachment and his removal from office as governor of New York was thrown into the federal court for review by William H. Moore, a printer of this city.

In a remarkable petition Moore alleges that the control of the government of the state of New York has passed from the people to a small group of citizens and that consequently New York is no longer enjoying a republican form of government, as guaranteed by the federal Constitution.

Moore seeks to have the court enjoin Martin H. Glynn from exercising any of the functions of governor, prays for the restoration of the office to Sulzer, attacks the assembly for arrogating to itself the power to convene in extraordinary session and pass articles of impeachment and concludes his petition with a prayer for an audit of all the state books.

Members of the court of impeachment, Governor Glynn, Attorney General Carmody, Secretary of State May and Sulzer himself are named as defendants. Why Sulzer was made a defendant is not clear.

Sulzer, engaged in the height of a campaign for election to the assembly on the Progressive ticket, expressed surprise at the filing of the suit. When reporters told him that the action had been brought, he said:

"That's the first I have heard of it." Moore disclaimed any motive for the action other than that inspired by his duty as a citizen and a taxpayer. Shorn of its legal verbiage the petition charges a group of men, consisting partly of the defendants and partly of men unnamed, with having obtained control of the state, its many offices and vast funds, for their sole use and benefit.

### CASE HAS NO PRECEDENT

Supreme Court Never Reviewed Impeachment Proceedings.

Washington, Oct. 31.—There are no precedents for the supreme court reviewing impeachment proceedings as such. The injunction proceedings filed in New York might come to the highest court for review on the contention that federal constitutional rights had been denied to Sulzer. On that phase there is a legal provision for a supreme court review. Should the case be forwarded from the lower court it undoubtedly would be expedited; otherwise a decision would not be reached in regular course for nearly three years.

### ASSERTS SUIT IS ABSURD

New York Attorney General Gives His Opinion.

Albany, N. Y., Oct. 31.—"Such a suit to restore Sulzer to power is absurd," said Attorney General Carmody. "I cannot believe that any one would bring such an action."

Former Senator Edgar T. Brackett, chief counsel for the assembly managers in the impeachment proceedings, made light of the suit.

Judge D. Cady Herrick, chief counsel for the defense, on several occasions has expressed the opinion that carrying the case to the supreme court would be futile.

### AID OF PRESIDENT WILSON

Dry Farming Congress Adopts Set of Resolutions.

Tulsa, Okla., Oct. 31.—The International Dry Farming congress adopted resolutions urging the appointment of a national research commission and the appropriation of \$250,000 by the United States to provide funds for the proposed commission.

The aid of President Wilson and Secretary of Agriculture Houston will be asked in procuring the appointment of the commission to report in two years the exact status of agricultural development in the United States.

Wichita, Kan., was selected as the 1914 meeting place.

### GAVE GIRLS TO CHINAMEN

Woman Sent to Prison for Arranging Mock Marriage Ceremonies.

Boston, Oct. 31.—Upon her confession that she arranged pretended marriages between white girls and Chinese and forged marriage certificates of justices of the peace Maud Yoo Dan, the white wife of a Boston Chinese, was sentenced to the women's prison at Sherburn.

The evidence showed that the defendant took five young girls from one New England city to another and had them married to Chinese by mock marriage ceremonies.

This is the night of all nights  
when the ghosts are supposed to walk  
and weird things are seen and surely  
will be the night of all nights at the  
local association.

Here you will have a chance to vis-  
it and experience everything from  
Hades to the garret. Everything  
hideous and outlandish will be at  
hand. You will not know where you  
are going, but you will doubtless  
realize that you are on your way.

As per last night's announcement  
we again wish to announce that the  
invitation is extended each senior  
member and his lady friend and oth-  
ers included in the invitations ex-  
tended at the various churches last  
Sunday.

Each member is expected to bring  
two lemons or ten cents worth of  
sugar. Ladies are expected to bring  
cookies or wafers, not to exceed a  
dime's worth.

## THE MINDEGAVE

Money Being Raised to Present to  
Norway on 100th  
Birthday

Mrs. Laura Bratager, of Minne-  
apolis is here to work among the Nor-  
wegians in Brainerd for the Minde-  
gave which means the gift of a mil-  
lion dollars that the Norwegians in  
America are going to present to Nor-  
way on May 17, 1914 when it is one  
hundred years since Norway became a  
free and independent land. Mrs.  
Bratager asks all the Norwegians to  
donate to this fund while she is here,  
which will be for one week during  
which time she will be the guest of  
Morris Moe, East Brainerd. A special  
meeting will be held in the Nor-  
wegian Lutheran church on Seventh  
St., at 7:30 Sunday evening.

There is more CATARRH in this section  
of the country than all other diseases  
put together, and until the last few  
years was supposed to be incurable. For  
a great many years doctors pronounced it  
incurable, and by constantly failing to  
cure with local treatment, pronounced it  
incurable. Science has proven catarrh  
a constitutional disease, and there-  
fore requires constitutional treatment.  
Halls' Catarrh Cure, manufactured by  
F. J. Cheney & Co., Toledo, Ohio, is the  
only Constitutional cure on the market.  
It is taken internally in doses from 10  
drops to a teaspoonful. It acts directly  
on the blood and mucous surfaces of  
the system. They offer one hundred  
dollars for any case it fails to cure. Send  
for circulars and testimonials.

## SHERIFF'S OFFICE BUSY

Apprehend Dick Hastings Charged  
with Larceny—Joseph Bobich  
Taken at Duluth

The sheriff's office is a busy place  
these days and Sheriff F. J. Reid and  
his competent deputy, Claus Theorin,  
generally get every man they go af-  
ter.

This morning Dick Hastings, of  
Sandusky, Ohio, charged with lar-  
ceny, was arrested at Carlton before  
he had time to make Superior and get  
the boundary of a state line between  
pursuit. Hastings is charged by  
Nick Lauer with taking \$22 from the  
till while Hastings worked three  
days as barkeeper at the Iron Ex-  
change hotel bar. In addition Hast-  
ings is also said to owe Lauer a board  
bill.

Joseph Bobich, charged with em-  
bezzlement, was taken at Duluth on  
charges preferred against him by H.  
K. Dimmick, who claims Bobich was  
short several hundred dollars on col-  
lections. The warrant was issued  
by Justice of the Peace Berg. Bobich  
was traced to Crookston, Jamestown,  
LaCrosse and just lately to Duluth  
and there he was captured. At the  
hearing before Justice Berg at Cros-  
by yesterday, Bobich waived exami-  
nation and was bound over to the  
grand jury.

# GEORGE A. KEENE DROWNED IN LAKE

Falls from Duck Boat Wednesday  
Afternoon While Hunting at  
Little Pelican Lake

## THE BOAT IS FOUND THURSDAY

Body in Seven Feet of Water Near  
Boat and About 200 Feet  
From the Shore

An overturned duck boat, wedged in the ice of Little Pelican lake Thursday morning, with its little circle of decoys, frozen in their position, marked the scene of a hunting tragedy in which George A. Keene, a prominent real estate man, Mason and pioneer of Brainerd, lost his life while hunting Wednesday.

In company with his son-in-law, R. J. Tinkelpaugh, Mr. Keene had camped at the lake. A duck boat is never a very stable craft. It may have upset when he reached over to pick up a duck. He may have accidentally discharged both barrels and the shock may have upset him from the boat.

J. M. Quinn, who helped take the body of George A. Keene from the waters of Little Pelican lake, said the body was in the west end of the lake about 15 rods from shore, standing upright in about seven feet of water. The boat and paddle had drifted 40 feet from where the body had been found.

Keene, in his struggles, had taken off his Macdonaw coat which had been weighted down with shells. He had made a gallant fight to save himself.

A farmer's wife living in the vicinity is said to have heard him scream at about 4 o'clock in the afternoon.

Keene had worn rubber boots and when he sank, these filled up and further weighted him down and kept him in an upright position in the mud bed of the lake. His face was averted as though looking at the setting sun.

His watch had stopped at 1:35. The body was found at 1:30 on Thursday afternoon.

Forty rods from the body was the camp where Mr. Tinkelpaugh and Mr. Keene had been located. Mr. Tinkelpaugh was away at another lake when the accident took place, and the drowning probably occurred some time between 2 o'clock and the evening.

From Mrs. Keene it was learned today that Mr. Keene and Mr. Tinkelpaugh had left Brainerd on Monday noon for Pelican lake. The camp was made on the shores of what is known as Little Pelican lake and near Paul Marquis' place. The outfit was hauled up by team and on the top of the load reposed the duck boat which caused the death of Mr. Keene. It was a small boat he had used the last twenty years.

The first two days out the men had no luck to amount to anything. Mr. Tinkelpaugh was informed by a hunter of another pass and went there Wednesday. He last saw Mr. Keene alive that morning at 6 o'clock. When he returned to the camp Wednesday evening, he found ducks which Mr. Keene had shot in the morning. There were evidences that he had eaten his dinner at the camp. The fire was out.

Mr. Tinkelpaugh shouted for him in the dusk of the evening. He waved his lantern about, but received no response. He could see but a few feet from the shore. Thursday morning he got up early and in the light of the dawn saw the overturned duck boat, the mute evidence of the tragedy, in the lake.

F. S. Parker assembled a party at Brainerd and took them to the lake to aid in the search. Assisting Mr. Parker were N. H. Ingersoll, Paul Marquis and L. W. Burrell.

Lee had formed on the lake and it was necessary to cut a channel to reach the duck boat. Al Lamb and

Dave King were in the boat which found the body. J. M. Quinn and Dave Robinson were also in the searching party.

The remains were tenderly lifted from the waters and taken to Brainerd. As the body was removed to the undertakers, his faithful, little, black dog "Nigger," could hardly be separated from his master. He clung to Mr. Keene and knew he had lost a good friend and the kindest master that ever lived.

Mr. Keene was born in Bedford, Mich., and was 61 years old. He received a common school education there and removed to Sheridan, Mich., with his parents, being one of a family of thirteen children. He was engaged in the drug business at Sheridan and it was there that he married Miss Nellie M. Sawyer. To them one child was born, Mrs. R. J. Tinkelpaugh.

He joined Pearl Lake lodge, No. 324 A. F. & A. M. there. In 1881 he removed to Brainerd and was first engaged in the real estate business. Later he was associated with John N. Nevers in the grocery business and then in the drug business.

Mr. Keene then removed to East Grand Forks and was there engaged in the drug business two years. He returned to Brainerd and associated himself with Milton McFadden in the real estate business and the firm name of Keene & McFadden was synonymous with square and upright dealing.

During his years in Brainerd Mr. Keene held many public offices of trust and responsibility. He was city clerk two terms, served on the city council and the school board.

He prized very highly his Masonic affiliations. In 1882 he transferred from Sheridan to Brainerd and became a member of Aurora Lodge, No. 100. He was a member of the Commandery and was past eminent commander. He held office in the chapter and the blue lodge, attended constantly and was wonderfully well versed in its eloquent ritual.

Mr. Keene liked the life of the woods and the fields and regularly every season he would take his gun and dog and shoot chickens and deer. He was versed in all the essentials of woodcraft and hunting. Many an old hunter will have the tears come to his eyes when he reads of George A. Keene's untimely end, of his brave struggle for life, alone in the ice cold waters of the lake, with no helping hand to save him.

While he tread water he divested himself of his heavy coat. He summoned to his aid all his strength and resolution and the fact that his body was found some distance from the boat shows that he fought bravely to the end.

He was a man whose word was as good as his bond. His opinion in real estate matters was highly regarded. He served as an appraiser on the board of commissioners appraising the lands condemned by the Cuyuna Northern railway company on their north range extension. He was also on the Soo line board which appraised the Iron Mountain Mining Co. railway extension. He was a member of the appraisers of the Geo. W. Holland estate and of the Harrison estate. As a real estate expert his testimony was often used in litigation.

The funeral will be held on Monday afternoon and will be under Masonic auspices, Aurora lodge having charge. Ascalon Commandery, No. 16, will furnish the Knights Templar escort. Rev. G. P. Sheridan pastor of the First Congregational church, will be the minister officiating. Interment will be in Evergreen cemetery.

# JOHN SORNBERGER CAMP MISSIONARY

Famous Lumber-Jack Evangelist will  
Preach at the Presbyterian  
Church Sunday

## HE ROSE FROM THE DEPTHS

For Last Six Years He has Carried  
the Gospel to the Logging  
Camps and the Settlers

John Sornberger, who is to preach at the Presbyterian church Sunday, was at one time a familiar character about this city. He started to work in the woods in early life and served in every capacity as a lumber-jack from a "swamper" to cook and camp foreman. He took as naturally to the woods as a bird to the wing for his father had hit the same trail before him—he knew nothing else. Those who know the elder Sornberger know that there is no more typical lumber-jack anywhere to be found. He is living today in a shack in the wilderness on the upper Mississippi.

The younger Sornberger, in true camp style, longed for pugilistic honors and found them. He became local champion. He pitted himself against all comers, light weight, middle weight, heavy weight, black or white men, and in the parlance of the profession, "cleaned them all up." He met his Waterloo, however, in Fargo where a "celebrity" of national reputation laid wait for him. His defeat was effectual, it cost him his nerve. From that time on his fighting was confined to the ones he "picked" in saloons and along the "drives" when under the influence of liquor. At such times he was as dangerous to meet as a bear robbed of her whelps.

He dug a pit and fell into it—he was drugged, robbed, poisoned. He became an Ishmael, whose hand was against every man and every man's hand against him. An outlaw and an outcast he sought refuge in the camps. There one night he heard a camp missionary, Frank Higgins, the lumber-jack sky-pilot. He came to himself; hope was born within his soul; he determined to try this last expedient. It worked.

For the last six years he has been doing missionary work in the logging camps, and to the settlers along the Mississippi. Everywhere he has met with success. His converts are now the ones he used to "punch" in the howling days of old.

Mr. Sornberger at one time worked in the woods tributary to this city. In writing to Rev. Lowrie about his coming he said, "I know something about Brainerd that you do not know. I know how the inside of the jail looks—I spent sixty days there." Today he has a message that will keep men from jail and from the other blind paths he unwittingly followed for so many years.

### BARROWS MASQUERADE

Large Attendance Enjoys the Social  
Function at Peck's Hall on  
Thursday Evening

When the committee, Messrs. E. Peterson, Ed Ring and J. Kohlstad, of Barrows, saw the crowd stream into Peck's hall Thursday evening, all eager to attend the Halloween masquerade, they knew their efforts had been successful and that the entertainment was a social success. The music was good and every one had a good time.

J. Kohlstad called the dances. When the prizes were distributed, these judges were appointed to make the awards, R. C. Klinkenberg, cashier of the First State bank of Barrows; A. N. Jacobs, of Duluth, of the Duluth News-Tribune and Capt. Fred Ott. They made these awards:

Comic lady, clown, Mrs. A. Quackenbush.

Comic gentleman, clown, John Widman.

Best dressed lady, gypsy, Miss Rose Kooppl, of Brainerd.

Best dressed man, Indian, John Klow.

### SEE IF THE CHILD'S TONGUE IS COATED

Mother! Don't Hesitate! If Cross,  
Feverish, Constipated, Give "Cal-  
ifornia Syrup of Figs"

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach ache, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative;" they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv't.

There is a splendid assortment of these coats and warm cloths, made with all late style effects and priced most popularly. If this is the amount you have thought you wanted to give for a coat—let us show you these.

There is a very large line to select from at this price. Beautiful mixtures, good warm coats that button high at the neck. There are also those most desirable boucle coats, too. Sizes from 16 to 42. You should see this lot.

Should this be the price you had expected to pay for a coat we will show you chinchilla coats, boucle coats and most desirable mixtures. A large range of sizes and all made of good warm cloths. They merit your attention.

We had the experience of selling two of our half-price suits to a family the other day, who came in solely for other articles. When they saw the beauty and the value of our suits they added these to their wardrobe. Some of these suits are as heavy as coats and, withall, the styles are so good, being mostly plain tailored that we are selling them to some who really intend them for spring suits. You should see them.

# PUT IN LOCK A LONG LAKE

This Would Enable Motor Boats and

Round to Long Lakes

## DITCH FROM ROUND TO GULL

This Plan Offers a Partial Solution  
of the Present Difficulties  
Regarding Canal

A well known riverman and woodsman has offered this plan as a partial solution of the difficulties attending the building of the canal in the Gull Lake Reservoir project, and one which will preserve the waters of Long lake at their present height.

Between Round and Long lakes build a lock. One ten feet wide will do and will permit motor boats and launches to negotiate the short stretch between the lakes. The lock tender can be at his post an hour in the morning and an hour in the evening to let boats through. This plan will preserve the waters of Long lake at their present height and prevent the depletion of the water which Lieut.-Col. Charles H. Potter said would occur should Long lake ever be added to the proposed Gull Lake Reservoir canal.

The government, at small cost, could ditch the area between Round and Gull lakes. This plan would give the desired communication sought by lake residents and tourists and would enable many to make train connections at Merrifield and permit of more travel to and from Brainerd.

The Gull lake reservoir must be emptied to some extent in the winter to make room for the spring freshets.

## GEORGE A. KEENE DROWNED IN LAKE

Falls from Duck Boat Wednesday  
Afternoon While Hunting at  
Little Pelican Lake

### THE BOAT IS FOUND THURSDAY

Body in Seven Feet of Water Near  
Boat and About 200 Feet  
From the Shore

An overturned duck boat, wedged in the ice of Little Pelican lake Thursday morning, with its little circle of decoys, frozen in their position, marked the scene of a hunting tragedy in which George A. Keene, a prominent real estate man, Mason and pioneer of Brainerd, lost his life while hunting Wednesday.

In company with his son-in-law, R. J. Tinkelpaugh, Mr. Keene had camped at the lake. A duck boat is never a very stable craft. It may have upset when he reached over to pick up a duck. He may have accidentally discharged both barrels and the shock may have upset him from the boat.

J. M. Quinn, who helped take the body of George A. Keene from the waters of Little Pelican lake, said the body was in the west end of the lake about 15 rods from shore, standing upright in about seven feet of water. The boat and paddle had drifted 40 feet from where the body had been found.

Keene, in his struggles, had taken off his Macdonaw coat which had been weighted down with shells. He had made a gallant fight to save himself.

A farmer's wife living in the vicinity is said to have heard him scream at about 4 o'clock in the afternoon.

Keene had worn rubber boots and when he sank, these filled up and further weighted him down and kept him in an upright position in the mud bed of the lake. His face was averted as though looking at the setting sun.

His watch had stopped at 1:35. The body was found at 1:30 on Thursday afternoon.

Forty rods from the body was the camp where Mr. Tinkelpaugh and Mr. Keene had been located. Mr. Tinkelpaugh was away at another lake when the accident took place, and the drowning probably occurred some time between 2 o'clock and the evening.

From Mrs. Keene it was learned today that Mr. Keene and Mr. Tinkelpaugh had left Brainerd on Monday noon for Pelican lake. The camp was made on the shores of what is known as Little Pelican lake and near Paul Marquis' place. The outfit was hauled up by team and on the top of the load reposed the duck boat which caused the death of Mr. Keene. It was a small boat he had used the last twenty years.

The first two days out the men had no luck to amount to anything. Mr. Tinkelpaugh was informed by a hunter of another pass and went there Wednesday. That you can do by ridding yourself of the cause. Weak and inactive kidneys allow uric acid poisons to remain in the blood and rheumatic pains swollen and aching joints follow. Take Foley Kidney Pills to ease you of the pain and torment. They will positively and permanently build up the kidneys, restore their normal action and keep the uric acid crystals out of the blood and body. Try them. H. P. Dunn.—Advt.

Herbert Spencer, the philosopher, once attended the Derby. Francis Galton, who was his guide, took notes of the jaunt: "All went off well, except that Spencer would not be roused to enthusiasm by the races. He said that the crowd of men on the grass looked disagreeable, like flies on a plate; also that the whole event was just like what he had imagined the Derby to be." Even the costumes of the men who shouted the odds was only what he had imagined them to be!

**Adenoids are a Menace to Children**

Adenoids result from a succession of colds in babies and young children. They spoil the mental and physical life of a child. The condition that causes them may easily be avoided by careful parents. **Sherman Kelly Coming**

Sherman Kelly and his big company will open a week's engagement at the Brainerd opera house on Sunday, November 2. This season Mr. Kelly carries what is known as a musical comedy stock company, during the action of the plays new and novel musical numbers will be presented. The plays that Mr. Kelly has chosen for this season are a great deal on the same order as The Spring Maid, The Man Who Owns Broadway, and the Girl Question, each play has a good plot and tells a pretty story, at the same time giving the different members of the company a chance to offer the latest musical selections, and with the feature vaudeville it really makes two shows in one. Mr. Kelly will open his engagement in a new comedy drama entitled "My Mary Girl".

**FIVE MINUTE CURE  
IF STOMACH IS BAD**

When "Pape's Diapepsin" Reaches Stomach all Indigestion, Gas and Sourness Disappears

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Advt.
